

ViTilt One - Brush material for conveying

ViTilt One is a brush covering for surfaces of vibratory conveyors and feeder bowls. Parts can be moved faster and more gently with less noise.

- The bristles hold the parts above the conveyor surface and keep them clean
- Less chance of scratches and damage to sensitive and polished parts
- Parts move in direction of the tilt smoothly and with easy change of conveying direction. Increasing conveying capacity and speed
- Noise level reduction up to 40% in dB

Comparison with Brushlon 321B

Standard delivery dimensions	
432 x 432 mm	10160 x 406 mm
Bristle tilt	
30° tilt	20° tilt
Total thickness	
6,0 mm	6,5 mm

Technical specifications

Article number	A999997
Standard delivery dimensions	432 x 432 mm
Bristle tilt	30° tilt
Top side	Nylon bristles
Color	Green
Bottom side	Polyurethane
Color	Black
Bristle length	4,76 mm
Total thickness	6,0 mm
Bristle diameter	0,13 mm
Weight	2,89 kg/m ²
